

## **HANDS-ON WORKSHOP ON WATER ANALYSIS TECHNIQUES**

The Department of Chemistry, St. Aloysius College, Edathua, organized a hands-on workshop on water analysis techniques on March 7, 2025, at 11:00 AM in the college's chemistry laboratory. The session was led by Ms. Swathy Soman, a research fellow from the School of Environmental Science, MG University, Kottayam.

The workshop commenced with a formal welcome address delivered by Dr. Anu Augustine, Assistant Professor, Department of Chemistry, who warmly introduced Ms. Swathy Soman to the chemistry fraternity. Ms. Swathy then presented an informative session on various water analysis techniques, providing students with valuable theoretical insights.

Following the presentation, participants were given practical training on different water analysis methods, allowing them to gain hands-on experience under Ms. Swathy's expert guidance. The engaging session provided students with a deeper understanding of water quality assessment and analysis techniques.

The workshop concluded with a vote of thanks by Mr. Princemon Philip, expressing gratitude to Ms. Swathy Soman for her valuable contribution and to all attendees for their active participation.
