

Report on Space Week Celebrations 2024

Date: August 16, 2024

Venue: Physics Department Lab, St. Aloysius' College, Edathua

Organizers: Research and Post Graduate Department of Physics, St. Aloysius' College, Edathua, in association with IQAC and with the support of the India Space Week Association (ISWA).

Introduction:

The Research and Post Graduate Department of Physics at St. Aloysius' College, Edathua, successfully organized "Space Week Celebrations 2024" on August 16, 2024. The event, held in collaboration with the India Space Week Association (ISWA), aimed to promote awareness and interest in space-related fields among students. The celebration coincided with the birth anniversary of Vikram Sarabhai, a key figure in India's space program.

Events Conducted:

The program featured a series of competitions and exhibitions centered around the theme "Space Education and Employment":

- **Poster Designing Competition:** Participants showcased their creativity and knowledge of space-related topics through visually appealing posters. The competition lasted for one hour.
- **Elocution Competition:** Students delivered speeches on the theme "Space Education and Employment" in either English or Malayalam. Each participant was allotted three minutes to present their views.
- **Quiz Competition:** A quiz was conducted to test the participants' knowledge of space science and related subjects.
- **Still Model Competition:** Participants designed and built models of rockets or spacecraft, with a maximum height restriction of 1 meter. The competition lasted for two hours.
- **Exhibition:** An exhibition was organized to display various space-related exhibits and projects.

Participation and Outcome:

The event witnessed enthusiastic participation from students across different departments. The competitions were conducted smoothly, and the participants demonstrated a high level of creativity and knowledge. The exhibition attracted a large number of attendees, providing them with valuable insights into the field of space science.

Conclusion:

The "Space Week Celebrations 2024" was a resounding success, achieving its objective of promoting space awareness and education among students. The event provided a platform for students to showcase their talents and learn more about the exciting possibilities in the field of space exploration. The organizers express their gratitude to all the participants, volunteers, and faculty members who contributed to the success of the event.
