

Research and Post Graduate Department of Physics, Nature and Energy Club & IQAC, St. Aloysius College, Edathua

The Research and Post Graduate Department of Physics, in association with the Nature and Energy Club and IQAC of St. Aloysius College, Edathua, organized an Energy Survey and Awareness Campaign on Energy Conservation in connection with National Energy Conservation Day (14th December). The programme was conducted from 14th to 20th December 2025.

Objectives

The main objectives of the programme were to create public awareness about energy conservation, promote energy-saving practices, and encourage sustainable use of energy resources.

Activities Conducted

As part of the campaign, an energy conservation booklet was prepared and distributed to the public to create awareness about saving energy in daily life. An energy survey was also conducted to understand public awareness and energy usage patterns.

Participation

Students from various departments actively participated in the campaign by distributing booklets, interacting with the public, and collecting survey data.

Outcome

The programme successfully enhanced public awareness on energy conservation and motivated people to adopt energy-efficient practices. The students gained valuable experience in community outreach and environmental responsibility.

Conclusion

The Energy Conservation Awareness Programme was successfully conducted and effectively contributed to spreading awareness about the importance of energy conservation for a sustainable future.
